

# COVINGTON COVINGTON HOMES

We Stand Apart  
Doing the Right Things the Right Way,  
*That is Who we are...*  
Creating a better way of Living.  
*That is what we do.*

Because it's not just a House,  
it's a **Home**

At Covington Homes we are focused on creating community. We are known as the Builder with the highest level of customer care that can be found. Our homes are well thought out, fully planned, and exceptionally executed. We hold true to our sense of family with our customers, trade partners, and the community. We believe that Home is where the heart is. Home is a special place- a place of refuge; a place where we live, eat, play, and relax; a place where families gather and create memories; a place where who we are and how we live can always be found; and often times a place to hand down from generation to generation.

**Community** Where you want to be
